2016/2017 SEASON GROWER CLEANING AGREEMENT

Important Grower Guidelines

This agreement outlines grower cleaning conditions for season 2016/2017 and only covers grain that is cleaned on our premises. The agreement is to be filled out prior to the grower's first delivery. It exists between the nominated grower and Shannon Bros PTY LTD. It must be signed with a current and valid NGR number nominated below. The loss per grower will be dependent upon what is lost from the cell cleaned overall. All loads must be delivered as warehouse and will not be available for transfer to an approved client until the cell has been entirely cleaned. A limit to certain weed seeds as outlined below will be applied upon receipt, however the final receipt shall be decided by the sampler at the time of delivery should they feel the load is determined to be too contaminated. All storage and warehouse fees will be applicable on the cleaned tonnage delivered. Growers will pay a cleaning fee for the original delivered tonnage and a fee for the removed product. These charges will be invoiced at the month's end of cleaning.

Cleaning Fee	\$22 / tonne
Removed Product Storage Fee	\$12 / tonne

Vetch (Type 3b)	4
Cereal (Type 7b)	4
Marshmallow/Wild Radish (Type 6)	20
Clover (Type 6)	20
Screenings	8%
Small Foreign Seeds	2%
